ULTRAVIOLET LIGHT STERILIZER WAND

Description:-

- Ultraviolet Light Sterilizer Wand is an essential tool to protect yourself against germs on all objects and surfaces. With a press of a button, a high-energy beam of UV (Ultraviolet) light is emitted from the specialized LEDs, effectively sanitizing surfaces without the use of chemicals. In just a few seconds, this Ultraviolet Light Sterilizer Wand can kill up to 99.9% of germs that are in its way.
- This Ultraviolet Light Sterilizer Wand powers on immediately without any warmup time and outputs UV light at optimal germicidal wavelengths.
- Powerful sanitization: This wand kills up to 99.9% of germs.
- Chemical-Free: This wand does not emit any chemical residue.
- Eco-Friendly: The UV light transmitted is an eco-friendly alternative to disposable wipes or other similar disposable sanitary products.

-
- UV light is proven to be highly effective in killing germs by breaking down the genetic code of pathogens and other bacteria.
How To Use: Turn on the wand, aim at the surface or object, and let the UV beam take care of the rest. Simply scan the Ultraviolet Light Sterilizer Wand over the surface you want to sanitize for at least 30 seconds, and the high-energy beam of UV light will immediately kill germs.
