SILVER HIGH SPEED AUTOMATIC HAND DRYER - 1350W

- This hand dryer is designed to provide fast, sanitary hand drying for your employees and customers. It's specifically built for use in high-traffic restrooms, giving you the peace of mind that it can withstand the abuse of constant operation. To help you save on energy costs, the machine even provides up to 85% savings when compared to conventional hand dryers, putting more money in your pocket while replacing slower, older dryers.
- This compact hand dryer quickly dries hands in 10 - 15 seconds with its powerful, 1350W motor. Plus, not only does it work quickly, but it also works more quietly than other hand dryers! This unit operates at a noise level of only 72dB to reduce disturbances and noise levels at your restaurant, bar, or retail venue.
- To help ensure sanitary drying, this model activates automatically using an infrared sensor. It also has an LED indicator that provides precise information about the optimal drying zone so that staff members and guests can dry their hands as efficiently as possible. Plus, to help save energy, this model turns off automatically after 45 seconds.

-
- This model is made for surface mounting and has a durable, type 304 stainless steel housing that stands up to abuse in high-traffic restrooms. The stainless steel construction resists corrosion and lasts for a long time, and the sleek finish allows the hand dryer to blend in and provide a professional look for your restroom!
 - This product must be hardwired; it does not plug into a standard wall outlet.
