iPad mini (A17 Pro chip) - Built for Apple Intelligence

Portable Powerhouse: iPad mini with A17 Pro Chip

The iPad mini with the A17 Pro chip redefines what a compact device can achieve, merging elite performance with a highly portable design. Despite its handheld size, it delivers the speed and efficiency required for demanding multitasking, professional productivity, and intensive creative projects, allowing you to carry a full-featured workstation wherever you go.

Next-Generation Apple Intelligence

Engineered with Apple’s sophisticated A17 Pro chip, this iPad mini intelligently scales performance to optimize professional apps, high-end graphics, and battery longevity. Experience ultra-responsive interactions and fluid app switching, making it the ideal companion for high-stakes work, academic research, or premium mobile entertainment.

Versatile Design for Maximum Portability

Lightweight and effortlessly portable, the iPad mini is designed for a life in motion. Its versatile form factor adapts to any task—from digital sketching and note-taking to high-definition streaming and gaming—providing a premium tablet experience that fits comfortably in one hand or a small bag.

Empowering Productivity and Creative Freedom

From students to creative professionals, the iPad mini (A17 Pro) is built to inspire innovation and streamline workflows. By combining advanced processing power with intuitive Apple features and unmatched portability, it stands as the premier choice for anyone seeking a powerful, compact device that doesn\'t compromise on capability.

Technical Features and Specifications

Built for Apple Intelligence: A personal intelligence system that assists with writing and expression, protected by groundbreaking privacy features that ensure your data remains accessible only to you.

8.3-Inch Liquid Retina Display: Features P3 wide color, True Tone, and ultralow reflectivity for stunning visuals in any lighting condition.

Pro-Level Performance: The A17 Pro chip provides ultrafast graphics for gaming and professional rendering, supported by all-day battery life and storage capacities starting at 128GB.

Advanced Camera System: Includes a 12MP Ultra Wide front camera with Center Stage for dynamic video calls and a 12MP Wide back camera with True Tone flash for 4K video and document scanning.

High-Speed Connectivity: Equipped with Wi-Fi 6E for rapid wireless transfers and an upgraded

USB-C connector for accelerated wired data speeds.

Secure Touch ID: Integrated into the top button for instant unlocking, secure app logins, and seamless payments via Apple Pay.
