Custom Polyester Wristband With Safety Breakaways

Event management requires a keen eye for detail, especially when it comes to wristbands. Conventional wristbands can be flimsy and lack the personalized touch that many events demand.

Polyester Fabric for Durability:
Our wristbands are crafted from high-quality polyester fabric, ensuring long-lasting durability and wear. Unlike flimsy materials that may tear or wear out quickly, these wristbands are designed to withstand the rigors of various events and activities, making them a dependable choice for event organizers and attendees alike.

Perfect Sizing for Adults:
These wristbands come in an ideal adult size, with a length of 202mm, providing a comfortable and secure fit for most wrist sizes. You can choose between two width options: 5/8" (15mm) or 3/4" (20mm), allowing you to select the one that best suits your event's style and requirements.

Custom Logo Options:
We offer a range of logo customization choices to match your branding and event needs. For a classic and cost-effective option, you can opt for a one-color logo screen printed on one side. If you desire a more vibrant and striking look, we also provide the option of a full-color logo on both sides,

allowing you to create a visually captivating and memorable wristband for your event.

Quality and Versatility:
These polyester wristbands with logo customization cater to a diverse range of events, from music festivals and sports games to corporate gatherings. The combination of durable fabric and customization options ensures that your wristbands not only serve the purpose of identification but also enhance the overall experience for your event attendees.
