Premium PU Coated Neoprene Can Cooler

Premium PU-Coated Neoprene Can Cooler

Keep your drinks perfectly chilled with this 12 oz PU-coated neoprene can cooler. Crafted from high-quality neoprene, it provides excellent insulation, cushioning, and flexibility, ensuring your beverage stays at the ideal temperature longer.

Durable and Water-Resistant

The thin polyurethane (PU) coating on the surface enhances durability and adds water and stain resistance. This makes the cooler ideal for both indoor and outdoor use, keeping it looking fresh and vibrant even after repeated use.

Perfect for Custom Branding

Designed for sublimation printing, the smooth PU surface offers a flawless canvas for full-color logos, artwork, or custom designs. It's an excellent choice for promotional giveaways, events, or personalized gifts.

Compact and Practical

Sized to hold a standard 12 oz can, this cooler is lightweight, portable, and easy to carry. Its soft yet sturdy construction makes it a practical accessory for picnics, parties, tailgates, or any occasion where keeping drinks cool is a must.
